

Pilots SCHEDULE OF EVENTS

Thanks so much for participating in this year's fly-in to honor the 80th anniversary of the WASP program. Nothing makes a WASP happier than a field of aircraft. While they will not physically be here, those who are still with us are elated at the thought of all of you on their training grounds. Their families and many female military pilots will be here standing in their place. Pictures and video will be sent to all the WASP at home.

Unless different arrangements have been made, Warbird pilots will receive a fuel stipend based on miles flown and calculated as follows: 10 gallons of fuel for every 100 miles flown up to one tank.

On the next page is a schedule of the weekend along with helpful information. We suggest you make hotel reservations now as this will be a large event and hotels fill quickly. A map and list of hotels is in this package. Shuttles to and from the hotels and to the Museum and airport will run Thursday – Sunday. Please do not hesitate to call or email us with further questions at coleclark@wasmuseum.org or 325-235-0099.
